Today's Action: Find & Delivery PPE to Those Who Need It

FACT:

Many nursing home workers and others on the front line do not have access to masks, gloves and other PPE to protect themselves.

ACTION:

1. Go to www.getusppe.org , enter your zip code and find the nearest front-line workers that need PPE.
2. The web site will show local operations, what they need and if they are accepting "open packages."
3. If you have or can buy (check your local convenience stores) gloves or masks, please find a health care facility near you and deliver them ASAP.

v

Getting Protective Equipment (PPE) to Our Healthcare Heroes.

Healthcare workers are front line fighters against COVID-19. They face critical shortages of Personal Protective Equipment (PPE) nationwide.

PPE enhances their safety so they can keep caring for our loved ones.

They will be forever grateful!
